HERMINA International Transports

We are a reliable name in the field of temperature-controlled transport for over 20 years. Specialised in transport of every variety of plants, we are the leader in Bavaria, Austria and South Tyrol, even for the delivery of small quantities.

Our refrigerated trucks transport furthermore goods for the food and electrical industries as well as for leading pharmaceutical manufacturers and other production and trading companies.

Our 50 staff members are engaged round-the-clock with 39 trucks, highly modern equipment, generously dimensioned storage and transshipment area to ensure a safe and reliable transport of your goods. The interests of our customers are the forefront of our trade. Values such as fairness, commitment, mutual trust, customer satisfaction and environmental responsibility are very important for us.

TRUCKS FLEET

We transport for you plants, food and non-food products, pharmaceutical products and much more.

MONITORING

All trucks are satellite-monitored and dispose of temperature recordings.

TRAINING

Regular trainings concerning load securing, automotive technology, social legislation and driving safety.

ENVIRONMENT

All trucks comply the higher emission standards with EURO 6 and EEV.

MAINTENANCE

The technical conditions of all trucks are regularly maintained according to their maintenance contracts, to ensure a safe and reliable transport. Two further voluntary "fleet checks" are carried out additionally.

STORAGE / TRANSSHIPMENT

At our sites in Regensburg – Haslbach industrial estate – and in Würzburg – Heidingsfeld industrial estate- we operate on 14.000 sqm business storage and transshipment of temperature-sensitive goods. We are specialised in plants as well as food and non-food products.

The total storage area can be heated or tempered on request and is "served" by our experienced warehouse staff with highly modern equipment in up to three shifts depending on the season.

Your benefits

- Heatable and temperature-controlled
- Specialist for plants, food and non-food products
- Seasonal 3-shift factory
- 14.000 sqm storage area in Regensburg and Würzburg

MANAGEMENT - EMPTIES

A fast billing within the specified time window is very important for our customers.

We also carry out the empties management for a large number of our clients and organise the exchange on arrival at the recipient as well as return to the dispatcher.

We take care at the same time of a fast and good proportion of shares exchanged by the delivery of the distribution goods.

Your benefits

- Fast processing
- Empties management
- good proportion of shares exchanged

About us

Quality

This quality policy is the essential component of the long-standing corporate philosophy of HERMINA Internationale Transporte. Its aim is to optimise continuously the quality of our services for the benefit of our customers and clients. "Standstill is stagnation" and therefore the requirements of our customers and clients are the benchmark for our daily work.

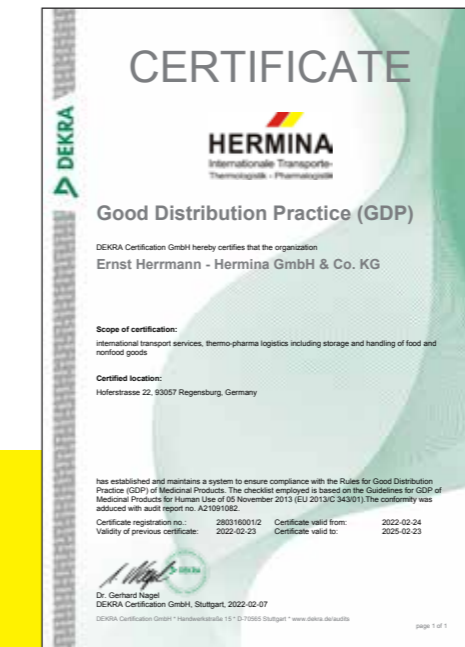

We set from our corporate philosophy the highest standards:

- Highest quality level
- Highest customer satisfaction through on-schedule handling and reliability
- Careful handling by the management of transported goods
- Direct and personal contact with our customers
- Professionally qualified and experienced drivers

*"Highest quality and reliability
in all services and in
trade for our customer"*
